

PLY THAT BUILDS LEGACIES

PLY THAT BUILDS LEGACIES

TECHNICAL SPECIFICATION

Our plywood is engineered to deliver excellence in every layer, offering termite and borer resistance for long-lasting protection against pests. With its fungus-free composition, it ensures a hygienic environment, while being eco-friendly, making it a responsible choice for modern, sustainable living. Known for its high strength and durability, this plywood stands strong in demanding conditions, making it ideal for both residential and commercial use. The 100% film face surface provides a smooth, glossy finish that not only enhances aesthetics but also improves workability for carpenters and designers. It features a premium Gurjan face veneer, known for its rich grain, strength, and premium appeal—adding sophistication to every sheet. Designed for universal application, it effortlessly adapts to a wide variety of projects including furniture, panelling, partitions, shuttering, and high-end interior finishes. Its wetness resistance ensures stability even in humid or damp conditions, while the anti-warping properties maintain the board's shape and structure over time, preventing bending or surface irregularities. Whether you're building a modern kitchen, a corporate space, or custom furniture, this plywood delivers performance that lasts. Available in multiple thicknesses—6MM, 8MM, 12MM, 16MM, 18MM, and 19MM—it offers flexibility for all types of carpentry and construction requirements, making it a preferred choice among architects, interior designers, and builders alike.

SILVER

Built to meet BWR 303 standards, this range offers boiling water resistance, making it ideal for high-moisture areas. Crafted with full core and full panel construction, it ensures superior strength and structural stability. Designed for long-lasting performance, it comes backed with a 15-year warranty, offering reliable value for a wide range of interior applications.

GOLD

Our Chequered Plywood is crafted to BWR 303 grade standards, making it ideal for truck and container flooring. It uses moisture-resistant glue and is fully fabricated and calibrated for maximum strength and stability. Made from 100% red and red core material with a white core base, it offers excellent durability and grip. Backed by a 25-year warranty, it's a reliable choice for demanding industrial applications.

PLATINUM

Crafted with IS 710 grade and face, this range offers superior waterproof performance using BWP (boiling waterproof) technology. Made from 100% red and red core material with Nilgiris and a 100% Gurjan core, it ensures unmatched strength and long-lasting durability. Ideal for marine and boat construction, it guarantees performance even in extreme moisture conditions. Backed by a 30-year warranty, it's a trusted solution for high-end waterproof applications.
